SUPPLIER PROFILES**

INTRODUCTION

Volume IV of the five report series entitled “Worldwide Study of Protective Relay Marketplace in Electric Utilities: 2006 – 2008” is a compilation of profiles for 23 suppliers of protective relays to utilities and industrial companies. This report focuses mainly on U.S. and European protective relay vendors.

An appendix of 16 Asian relay suppliers (most of which are local suppliers) is attached to this report. The appendix is a compilation of profiles conducted in a separate project.

Also included in the addendum is information on Asian protective relay resellers and distributors.
